

# Prescriptive Incentive Program

For Indiana commercial and industrial customers

Indiana Michigan Power (I&M) offers a variety of predetermined cash incentives to help cover the cost of energy-saving projects. From kitchen equipment to lighting to HVAC and VFD systems, our incentives cover many of the most popular energy efficiency upgrades.

Got a more unique project in mind? Check the reverse side for details on our custom incentives.

## ELIGIBILITY

- Must be a commercial or industrial customer in I&M's Indiana's service territory
- Pre-approval required on all projects with an estimated incentive of >\$20,000 or energy savings >1 GWh

## INCENTIVES

- Incentives may not exceed 75% of the total project cost, unless otherwise stated, materials, external labor, permits, equipment rental or disposal
- Cap: \$250,000 per site and \$500,000 per company per program year across all programs

## STEPS TO PARTICIPATE

1. Confirm your energy efficiency measure is located on a prescriptive incentive measure selection form and is a one-for-one unit upgrade.
2. Purchase and install your energy efficiency equipment.
3. Submit your completed application along with a copy of your W-9, tax exempt letter (if applicable), equipment spec sheet(s) and invoice(s) within 90 days of project completion.

For more details, contact the program team at **800-929-7633** or visit **ElectricIdeas.com/Prescriptive**.

*Deadline information: Project(s) that have a signed incentive offer on file from the customer will receive their associated incentives upon completion of the project(s) by the terms of the offer at completion. Funds are limited and paid on a first-come, first-served basis. Projects must have all work completed, along with all paperwork and invoices submitted by December 15, 2026. Projects that do not complete this information by December 15, 2026, will be subject to the incentive levels associated with the 2027 programs.*

## Eligible projects include:

- Interior/exterior lighting
- VFDs
- Cooking equipment
- Refrigeration
- Compressed Air
- Occupancy sensors

See our prescriptive measure selection forms for the full list of available incentives.

# Custom Incentive Program

For Indiana commercial and industrial customers

For existing, new construction and renovation projects not covered by our Prescriptive incentives, I&M offers Custom incentives to help you achieve long-term energy savings.

## ELIGIBILITY

- Must be a commercial or industrial customer in I&M's Indiana service territory
- All Custom projects must be pre-approved before purchasing and installing equipment
- Projects may require pre- and post-monitoring to verify energy savings

## INCENTIVES

- Custom incentives: \$0.07/kWh saved annually
- Cap: Incentives may not exceed 75% of the total project cost, including materials, external labor, permits, equipment rental or disposal
- Cap: \$250,000 per site and \$500,000 per company per program year across all programs

## STEPS TO PARTICIPATE

1. Contact a program-approved Trade Ally, your preferred contractor, or one of our experienced Energy Managers to determine your energy efficiency opportunities.
2. Submit an application to receive pre-approval and an incentive offer.
3. Sign and return incentive offer to program within 10 business days.
4. Purchase and install approved energy efficiency upgrades.
5. Submit your completed application along with a copy of your W-9, tax exempt letter (if applicable), equipment spec sheet(s) and invoice(s) within 90 days of project completion.
6. Project will receive final review and your incentive check will be issued.

## Eligible projects include:

- Non-Prescriptive lighting
- Building controls
- Refrigeration
- HVAC and compressed air systems
- Retro-commissioning
- Industrial process
- New building construction
- Addition or expansion of an existing site
- Gut rehab requiring new electrical systems and equipment
